Yes, here he comes again! Look at him! Whose dog is he? We are sitting around the little deck-house of the Savannah steamer, in that languid state of endurance which befalls voyagers, when, though the sky is clear, and the heavens blue, and the sea calm as a looking-glass, there is yet that gentle, treacherous, sliding rise and fall, denominated a ground-swell. Reader, do you remember it? Of all deceitful demons of the deep, this same smooth, slippery, cheating ground-swell is the most diabolic. Because, you see, he is a mean imp, an underhanded, unfair, swindling scamp, who takes from you all the glory of endurance. Fair to the eye, plausible as possible, he says to you, "What's the matter? What can you ask brighter than this sky, smoother than this sea, more glossy and

calm than these rippling waves? How fortunate that you have such an exceptionally smooth voyage!" Already famous for having written *Uncle Tom's Cabin* (1852), Stowe came to Florida after the U.S. Civil War (1861-1865). She purchased a plantation near Jacksonville as a place for her son to recover from the injuries he had received as a Union soldier and to make a new start in life. After visiting him, she became so enamored with the region she purchased a cottage and orange grove for herself and wintered there until 1884, even though the plantation failed within its first year. Parts of *Palmetto Leaves* appeared in a newspaper published by Stowe's brother, as a series of letters and essays about life in northeast Florida. Scion of New England clergy, Stowe keenly felt a sense of Christian responsibility that was expressed in her letters. She considered it her duty to help improve the lives of newly emancipated blacks and detailed her efforts to establish a school and church in Mandarin toward these ends. Parts of the book relate the lives of local African-Americans and the customs of their society. Stowe described the charm of the region and its generally moderate climate but warned readers of "excessive" heat in the summer months and occasional cold snaps in winter. Her audience comprises relatives, friends, and strangers in New

England who ask her advice about whether or not to move to Florida, which at the time was still mostly wilderness. Although it is a minor work in Stowe's oeuvre, *Palmetto Leaves* was one of the first travel guides written about Florida and stimulated Florida's first boom of tourism and residential development in the 1880s.... Harriet Elisabeth Beecher Stowe (June 14, 1811 - July 1, 1896) was an American abolitionist and author. She came from the Beecher family, a famous religious family, and is best known for her novel *Uncle Tom's Cabin* (1852), which depicts the harsh conditions for enslaved African Americans. The book reached millions as a novel and play, and became influential in the United States and Great Britain, energizing anti-slavery forces in the American North, while provoking widespread anger in the South. Stowe wrote 30 books, including novels, three travel memoirs, and collections of articles and letters. She was influential for both her writings and her public stances on social issues of the day. Life and work: Harriet Elisabeth Beecher was born in Litchfield, Connecticut, on June 14, 1811. She was the seventh of 13 children born to outspoken Calvinist preacher Lyman Beecher and Roxana (Foote), a deeply religious woman who died when Stowe was only five years old. Roxana's maternal grandfather was General Andrew Ward of the Revolutionary War. Her notable siblings included a sister, Catharine Beecher, who became an educator and author, as well as brothers who became ministers: including Henry Ward Beecher, who became a famous preacher and abolitionist, Charles Beecher, and Edward Beecher. Harriet enrolled in the Hartford Female Seminary run by her older sister Catharine,

where she received a traditional academic education usually reserved for males at the time with a focus in the classics, including studies of languages and mathematics. Among her classmates was Sarah P. Willis, who later wrote under the pseudonym Fanny Fern. In 1832, at the age of 21, Harriet Beecher moved to Cincinnati, Ohio to join her father, who had become the president of Lane Theological Seminary. There, she also joined the Semi-Colon Club, a literary salon and social club whose members included the Beecher sisters, Caroline Lee Hentz, Salmon P. Chase (future governor of the state and Secretary of Treasury under President Lincoln), Emily Blackwell and others..... This supplement to the Dictionary of Organic Compounds includes over 2500 entries, some of which are major updates, though the majority are new entries based on the editorial team's ongoing review of current literature. Lists news events, population figures, and miscellaneous data of an historic, economic, scientific and social nature. Underscores the pivotal, and at times controlling, role played by interest groups in southern politics. A wish is the strongest form of magic. It's also the most dangerous. For psychic Charlie Payne being haunted is an everyday experience. When Charlie agrees to help her cousin forage for furniture at an auction she expects to steer her cousin clear of any lingering spirits. But a child's wish makes that impossible. When her cousin brings home an object with a ghost-child attached to it, Charlie finds herself drawn into a sixty-year-old mystery. Her instinct is to help the child move toward the light. But the deeper she digs, the more she realizes that

some things should stay buried, because a spirit guarding a secret will do whatever it takes to protect it, including kill. *Shadow Child* is the sixth book in the *Witches of Palmetto Point* series. If you like spine-tingling supernatural suspense, witches, ghosts, and other paranormal creatures then you will love the *Witches of Palmetto Point* series. Detective Anise Porter is the commander of a powerful investigative team tracking the cunning rapist-murderer of beautiful, successful women in South Carolina. From the prestigious suburbs of Charleston to the capital city of Columbia and the beaches of Hilton Head, Anise and the Violence Against Women (VAW) Team doggedly track the ruthless killer across the Palmetto State. Political tensions enter the fray when Charleston's egocentric mayor forms an inexplicable vendetta against the VAW Team and tries to undermine their efforts at every turn. Anise's stress increases when the Attorney General who personally appointed her to the elite position, has infringed on her promised "total autonomy" and sent his protégé, retired Navy SEAL Reese Bay, to monitor the team's progress in the hunt for the elusive murderer. When her best friend Kaye Stiles is brutally attacked and one of the VAW's own is targeted by the killer, Anise knows she's running out of time. She struggles to lead her team to the killer and maintain a strictly professional relationship with Reese Bay while battling her growing feelings for him. She has to overcome these obstacles and come out on top because the violence has escalated and another woman is dead. But Anise's

greatest fear is that the killer will continue to evade her and return for Kaye. In 1867, Stowe settled in a small cottage in Mandarin, Florida, overlooking the St. Johns River. She had promised her Boston publisher another novel but was so taken with northeast Florida that she produced instead a series of sketches of the land and the people which she submitted in 1872 under the title *Palmetto Leaves*. Stowe describes life in Florida in the latter half of the 19th century—"a tumble-down, wild, panicky kind of life—this general happy-go-luckiness which Florida inculcates." Her idyllic sketches of picnicking, sailing, and river touring expeditions and simple stories of events and people in this tropical winter summer land became the first unsolicited promotional writing to interest northern tourists in Florida. The National Political Science Review is the official publication of the National Conference of Black Political Scientists. The Review's purpose, as described by Matthew Holden in his introduction, is to "lead to new information, insights, and findings" into the social and political status of African Americans. The volume is not exclusionist or narrow. It integrates essays that could stand alone, as they initially were written, according to the method and theory of the author in question. As presented here, however, they also lend themselves to a broader treatment of race and the political order. The present volume combines essays expressly focused on African Americans, Africa, and the African diaspora. At the same time, it contains essays about broad generic subjects such as budgeting and interest groups, written with no explicit racial relevance. Holden integrates these essays under the theme of the changing racial regime. The integrating concept is the old word "regime," which political scientists have used in many situations before to define such more or less persistent, though not necessarily permanent, orders of precedence. If no significant benefits and no significant burdens could be forecast by knowledge of the social identity called race, then the regime could be seen as non-racial. In American experience, the regime was, at one time, purposeful and sustained white advantage. The "white race" and its preferential standing, was central to virtually all institutional practice - public and private. The significant contemporary question is the degree of change in the racial regime. Some

proceed with the assumption that a large degree of change has occurred in the American political system. The view of other contributors is that the system still sustains racial stratification. In its very internal dialogue, this volume presents a panorama of current work by political scientists, African American and other, on the character of the American political system. *The Changing Racial Regime* is an essential resource for political scientists, black studies specialists, and scholars and policy analysts of race relations in the United States. This book is the answer to the perennial question, "What's out there in the world of genealogy?" What organizations, institutions, special resources, and websites can help me? Where do I write or phone or send e-mail? Once again, *Elizabeth Bentley's Address Book* answers these questions and more. Now in its 6th edition, *The Genealogist's Address Book* gives you access to all the key sources of genealogical information, providing names, addresses, phone numbers, fax numbers, e-mail addresses, websites, names of contact persons, and other pertinent information for more than 27,000 organizations, including libraries, archives, societies, government agencies, vital records offices, professional bodies, publications, research centers, and special interest groups.
