The Genesis of Technoscientific Revolutions Jun 02 2021 Research powers innovation and technoscientific advance, but it is due for a rethink, one consistent with its deeply holistic nature, requiring deeply human nurturing. Research is a deeply human endeavor that must be nurtured to achieve its full potential. As with tending a garden, care must be taken to organize, plant, feed, and weed and the manner in which this nurturing is done must be consistent with the nature of what is being nurtured. In The Genesis of Technoscientific Revolutions, Venkatesh Narayanamurti and Jeffrey Tsao propose a new and holistic system, a rethinking of the nature and nurturing of research. They share lessons from their vast research experience in the physical sciences and engineering, as well as from perspectives drawn from the history and philosophy of science and technology, research policy and management, and the evolutionary biological, complexity, physical, and economic sciences. Narayanamurti and Tsao argue that research is a recursive, reciprocal process at many levels: between science and technology; between questions and answer finding; and between the consolidation and challenging of conventional wisdom. These fundamental aspects of the nature of research should be reflected in how it is nurtured. To that end, Narayanamurti and Tsao propose aligning organization, funding, and governance with research; embracing a culture of holistic technoscientific exploration; and instructing people with care and accountability.

The Secret Feb 22 2023 The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.

Far, far away in a world just like ours, a mother cheers her son Joe with the tale of Jack Hare's adventure. But when Jack's mission goes topsy-turvy, Joe and his mum must come to the rescue, and the line between the two worlds becomes blurred forever. Witch Hunts in Europe and America May 01 2021 From early sorcery trials of the 14th century--associated primarily with French and Papal courts--to the witch executions of the late 18th century, this book's entries cover witch-hunting in individual countries, major witch trials from Chelmsford, England, to Salem, Massachusetts, and significant individuals from famous witches to the devout persecutors. Entries such as the evil eye, familiars, and witch-finders cover specific aspects of the witch-hunting process, while entries on writers and modern interpretations provide insight into the current thinking on early modern witch hunts. From the wicked witch of children's stories to Halloween and present-day Wiccan groups, witches and witchcraft still fascinate observers of Western culture. Witches were believed to affect climatological catastrophes, put spells on their neighbors, and cavort with the devil. In early modern Europe and the Americas, witches and witch-hunting were an integral part of everyday life, touching major events such as the Reformation and the Scientific Revolution, as well as politics, law, medicine, and culture.

Scavenger Hunt Dec 28 2020 Philip Marlow and Lew Archer would recognize a kindred spirit in Jimmy Gage, reporter for SLAP magazine, troublemaker by trade and inclination, and the hero of Robert Ferrigno's sinuous new crime novel. While taking part in a Hollywood scavenger hunt, Jimmy meets Garret Walsh, a bad-boy movie maker in the truest sense: He's just been released from prison after serving seven years for the murder of a teenaged girl. But Walsh claims he was framed and is writing a screenplay to prove it. He wants Jimmy to help him peddle it, sight unseen. The next time Jimmy sees the director, he's floating face-down in a koi pond and "The Most Dangerous Screenplay in Hollywood" has disappeared. Is Walsh a casualty of bad habits or has somebody crossed him off a list? And is Jimmy next? Combining nerve-shredding suspense and heat-seeking satire, Scavenger Hunt is an addictive read.

Legal Research Scavenger Hunt Workbook Sep 05 2021 To view examples from this book for course adoption consideration, please contact bhall@cap-press.com. This new regional workbook series provides practical assignments on both the federal and state levels to complement most research books on the market. Each workbook begins with a federal section with exercises that give students practice researching cases, statutes, regulations, and procedures. The second part of each workbook will feature state-specific exercises for that region. For example, the South Central region will include Texas, Louisiana, Oklahoma and Arkansas. State exercises include those on statutes, codes, regulations, court rules, and case law for each state. The regional divisions correspond with the states represented by AAFPE regions -- North Central, Pacific, South Central, Northeast and Southeast. Before beginning the assignments, the students will need to review the research text they are currently using or have previously used in the basic research course. Chapters One through Ten contain exercises from the many different types of legal resources with which students must be familiar to work in the legal environment. The chapters contain one or more assignments regarding various research topics and resources so that the instructor can tailor the course to the primary text, style, format, and/or the course syllabus. Most of these exercises require the student to utilize the library to locate the resources required to answer the questions in each section. This workbook is written so that the student will have more "hands-on" time with the written legal works. The instructor will provide the student with specifics as to which assignments may be completed using proprietary legal search engines and which must be done by visiting the law library. Chapters Six and Ten provide the student with specific exercises for various types of on-line research, both free and proprietary. Chapter Eleven contains legal memoranda assignments. The students will prepare one or more, at the direction of the instructor. These assignments require the use of the knowledge and skills students have acquired by completing the exercises in the previous chapters as well as the primary textbook used in the course. The scenarios provided in the chapter all based on different types of law. The student will need to research the numerous issues in each scenario and then must write a memorandum to the attorney (instructor). The Memorandum must contain citations for the case law, statutes, rules, and/or regulations that the student has located regarding the various legal issues and topics. The instructor should inform the students whether they are to use the IRAC or some other method of preparing the Memorandum. State-specific exercises round out the workbook. The citations provided are consistent with the Bluebook style. The instructor will advise the student of which citation style manual should be used for this workbook so that it is consistent with the requirements of the school, local court rule, and/or the primary textbook used by the student. The assignments and exercises in this workbook are meant to hone the students' research skills and assist them in becoming more familiar with the numerous legal resources, and how to use them more efficiently and effectively. A teacher's manual/test bank pdf is available upon adoption. Please contact bhall@cap-press.com for more information.

Grandpa Stops a War Jun 21 2020 "It takes a man of peace to stop a war." The true story of Paul Robeson's visit to the front lines of the Spanish Civil War is a tale of courage and activism told by his granddaughter, Susan Robeson. Grandpa Paul was a world-famous actor and singer with a deep and rumbling voice, a man of peace and principle who worried about the safety of children and families living in countries at war. He wanted to use his voice to promote social justice all over the world. Though people warned Grandpa Paul that it was too dangerous, he traveled with his friend Captain Fernando to the battlefields of the Spanish Civil War to sing to the soldiers. And then something amazing happened... With gorgeous illustrations from fine artist Rod Brown, Grandpa Stops a War celebrates Paul Robeson's global activism and towering achievements, and shows readers the power of music in times of discord and war. An author's note helps readers learn more about the author's personal experience growing up in the Robeson family, and gives parents, teachers, and librarians more in-depth material to expand the reader's understanding of the war and Robeson as a champion of civil rights, global freedom, and world peace.
